Objective

Seeking a career that is challenging and interesting, and lets me work on the leading areas of technology, a job that gives me opportunities to learn, innovate and enhance my skills and strengths in conjunction with company goals and objectives.

Profile Summary

- An Innovative and resourceful fresher pursuing Bachelor of Engineering degree in Civil engineering stream.
- Expert in making plans of various civil works.
- Excellent written and communication skills.

Technical Skills

- Experience in Basic use of computers.
- Auto Cad Software.
- Staad.Pro software.
- Internet Savvy.

Educational Qualification

- B.tech Civil Engineering from KCC ITM COLLEGE with 65.5%
- Intermediate from CBSE board with 59.4%
- High school from CBSE Board with 64%.

Projects

Project Name: Low Cost Earthquake Resistant techniques.

Project Duration: Working

Description: This thesis focuses on the experimental studies conducted on the development of low-cost seismic base isolation bearings using scrap automobile tires. Numerous studies have been conducted on seismic base isolation systems for

almost a quarter decade. Although majority of the studies focus on the performance improvement of the base isolation systems, this study aims at cost and weight reduction in seismic base isolation pads by recycling otherwise useless material:ST

Achievements

- Got prize in yoga Events.
- Actively participated in various college events.
- **Present The Paper in NATIONAL CONFERENCE.**
